| | | | |
|---|--|--------------------------|--|
| Application checklist, the following items should accompany the application, <i>please indicate attachments:-</i> | | | |
| <input type="checkbox"/> | Test Report(s) to current standard listed in ESR Schedule 4 or AS/NZS 3820 | <input type="checkbox"/> | Detailed technical description, including photos |
| <input type="checkbox"/> | Sample of the article ¹ | <input type="checkbox"/> | \$408.89 (GST inclusive) Approval application fee ² |

Please note:-

¹ For small articles a sample for examination is desirable, for larger articles a specimen may not be required provided that there are adequate photographs detailing all aspects of construction.

² This application is to be accompanied by the prescribed application fee, which once lodged, is non-refundable even in the event that the application is unsuccessful, for whatever reason.

The applicant declares in good faith, that the supporting information is accurate and the test specimen truly represents the article for which approval is sort:-

Signature: Date / /

Forward to: Operations Manager, Energy Safety, PO Box 1473, Wellington, New Zealand

Notes for Completion of Application for Certificate of Approval.

The purpose of this Form is to apply for a certificate of approval for a declared article pursuant to regulation 85 of the Electricity (Safety) Regulations 2010.

Approval application information:

- A series or more than one model of article can be included in a single approval application, providing that they are of the same fundamental construction and are specifically included in the supporting test reports.
- Test reports must be from a recognised testing facility showing how full compliance with applicable standards is achieved.
- Fitted plugs are subject to a separate approval as they are components listed as declared high risk articles and are bound by the conditions of that approval. During the period of approval where a high risk article is fitted with a plug, the manufacture may fit alternative plugs of the same or greater rating, provided that they are compliant with applicable standard and have a valid approval.
- The information must be supplied in English and any supporting test report must be less than 5 years old. Note: Approval duration may be limited by the age of the oldest supporting test report, if any supporting report is over 12 months old, at the time of approval application.
- The prescribed application fee must accompany this application. Cheques are to be made out to the Ministry of Economic Development and should be marked "not negotiable".

Please direct any requests for further information to:

Operations Manager
Energy Safety
PO Box 1473
WELLINGTON
NEW ZEALAND

This form is approved by the Manager, Operations, Energy Safety, acting under delegated authority from the Chief Executive, Ministry of Economic Development for the purposes of regulation 85 of the Electricity (Safety) Regulations 2010.
